No 1.—In connexion with the selection of Indian candidates for admission to the Royal Military College, Sandhurst, with a view to their qualifying for King's Commissions in the Indian Army, it is proposed to hold an entrance examination in Simla on the 5th May 1924, for the term commencing at Sandhurst in September 1924. There will also be nominations of Indian Cadets to King's Indian Cadetships. The following information is published for the use of intending candidates :—

(1) Candidates must be between the ages of 18 and 20 on the 1st July 1924 and must state their age *definitely*.

(2) Candidates are required to furnish a declaration which must be signed by their parents or guardians, to the effect that it is their intention to make the Army their permanent profession.

(3) Candidates must be prepared to pass a qualifying examination the detailed syllabus of which is printed as an Appendix to this notification. The general educational standard required is that prescribed for the diploma of the Chief's Colleges, a school-leaving certificate recognized by a Local Government, the Matriculation examination of an incorporated University or any higher examination

(4) Candidates will, in addition, undergo a special test consisting of an oral examination conducted on similar lines to the Admiralty Test for the Royal Naval College. This examination which is designed to test the intelligence and general knowledge of candidates will be conducted by a Board of officers.

(5) A medical examination, according to the standard laid down in Appendix 18 of the Regulations for the Army Medical Service, 1908, will also be held in Simla. Candidates should attach to their applications a medical certificate from a *competent medical officer* to the effect that they come up to the standard mentioned above.

(6) The cost of a first-class railway fare from their homes and back will be granted to candidates attending the medical and qualifying examinations in Simla.

Candidates finally nominated to join the Royal Military College, Sandhurst, will also receive the cost of one first-class fare from their residence to the port of embarkation, in India, and a first-class passage by sea to England.

Applications for railway fares should be made to the Private Secretary to His Excellency the Governor of Madras.

Passages by sea for candidates selected for admission to the college will be arranged by the Embarkation Commandant, Bombay, under orders from Army Headquarters.

Selected candidates will be sent to England in charge of a British officer, who will be appointed by Army Headquarters and who will meet the candidates at Bombay. Each candidate will hand over to this officer at Bombay the sum of Rs. 300 to cover the cost of expenses incurred during the voyage to England.

(7) The ordinary fees for cadets at the Royal Military College, Sandhurst, for two years are as follows :—

(9) The above estimate does not provide for European kit on arrival in England other than the amount required for college uniform; for the purchase of European kit an additional sum of from £100 to £200 should be provided. Neither does this estimate include anything for the cost of outfit on being commissioned from the college.

(10) The Local Government will recover from parents or guardians punctually in advance at the beginning of each year of the Sandhurst course one-half of the total estimated expenditure for two years and pay it into the local Treasury with full details in each case and with instructions that the credits should be passed to the Secretary of State for India through the outward London Account Current. No cadet will be allowed to pursue a term at the College until the fees for that term have been paid.

(11) An allowance of 4s. a day, in aid of the expenses of messing, washing, and other contingencies, will be admitted as a charge against the public for each cadet so long as he is in residence at the Royal Military College. All other necessary expenses which cannot be covered by this allowance shall be chargeable to the parent or guardian of a cadet.

(12) If a cadet is absent a whole term in consequence of rustication, a payment of £10 shall be required in lieu of the half-year's contribution for the privilege of his name being kept on the rolls of the establishment, and for a vacancy being kept open at the commencement of the next term.

(13) If a cadet is rusticated or removed during a term, his daily allowance shall cease from the date of such rustication or removal, and the contribution made for the half-year shall be forfeited, unless otherwise specially decided by the Army Council.

In exceptional cases a refund of the contribution for the period of absence, may be authorized by the Commandant, and in such cases the cadet's allowance shall cease for the period of the refund.

(15) Indians selected for cadetships will be subject to such rules and regulations as are, or may be, from time to time, established for the maintenance of good order and discipline at the college.

They will, while at the Royal Military College, belong to the ordinary College Mess and special messing arrangements can be made on their behalf.

Indian cadets are required to appear at all times in the uniform of the college except when on leave or when otherwise exempted by the Commandant, but they will be allowed to wear their national head dress should they so desire.

They will not be allowed to take servants or personal attendants of any kind to the college.

(16) One of the rules for admission to the Royal Military College is that a cadet should be unmarried. This rule will be waived in the case of Indian candidates, but in no circumstances will a cadet be allowed to take his wife or family to England.

(17) The normal length of the course of instruction will be about two years divided into four terms. The college terms will be—

Spring term.—From about beginning of February to about middle of July.

Autumn term.—From about beginning of September to about middle of December.

The intermediate periods will constitute the vacations.

(18) Cadets from India will have to qualify in the ordinary passing out examination and will, on qualifying, be eligible for King's Commissions. Before being passed as fit for a commission, they must be certified to be in good mental and bodily health and free from any physical defects likely to interfere with the performance of their military duties. Those who are successful in obtaining commissions will enter the Indian Army as Second Lieutenants.

(19) Unless a Government building is available, candidates will be provided with private accommodation usually in a hotel at Simla. Candidates will be charged for messing, but the cost of the rent of the quarters will be borne by Government. Suitable arrangements will be made for those candidates who are precluded, by caste, from eating the food provided.

Candidates may arrange for quarters in the hotel other than those provided, but they will be liable for any additional cost incurred. Candidates will on no account be allowed to live elsewhere.

Parents or guardians must ensure that candidates are provided with sufficient funds to meet the cost of their expenses while in Simla.

(20) The Private Secretary to His Excellency the Governor of Madras, to whom applications should be made not later than 23rd February, will intimate to the selected candidates the fact of their selection. No application received after the 23rd February will be considered.

30. Triangles on the same or equal bases and of the same altitude are equal in area.

31. Equal triangles on the same or equal bases are of the same altitude.

32. Illustrations and explanations of the geometrical theorems corresponding to the following algebraical identities:—

$$k(a+b+c+\ldots)=ka+kb+kc+\ldots$$
$$(a+b)^2=a^2+2ab+b^2,$$
$$(a-b)^2=a^2-2ab+b^2,$$
$$a^2-b^2=(a+b)\,(a-b).$$

33. The square on a side of a triangle is greater than, equal to, or less than the sum of the squares on the other two sides, according as the angle contained by those sides is obtuse, right, or acute. The difference in the cases of inequality is twice the rectangle contained by one of the two sides and the projection on it of the other.

LOCI.

34. The locus of a point which is equidistant from two fixed points is the perpendicular bisector of the straight line joining the two fixed points.

35. The locus of a point which is equidistant from two intersecting straight lines consists of the pair of straight lines which bisect the angles between the two given lines.

THE CIRCLE.

36. A straight line, drawn from the centre of a circle to bisect a chord which is not a diameter, is at right angles to the chord; conversely, the perpendicular to a chord from the centre bisects the chord.

37. There is one circle, and one only, which passes through three given points not in a straight line.

38. In equal circles (or, in the same circle) (i) if two arcs subtend equal angles at the centres, they are equal; (ii) conversely, if two arcs are equal, they subtend equal angles at the centres.

39. In equal circles (or, in the same circle) (i) if two chords are equal they cut off equal arcs; (ii) conversely, if two arcs are equal, the chords of the arcs are equal.

40. Equal chords of a circle are equidistant from the centres, and the converse.

[Section IV.]

THE CIRCLE (*continued*).

41. The tangent at any point of a circle and the radius through the point are perpendicular to one another.

42. If two circles touch, the point of contact lies on the straight line through the centres.

43. The angle which an arc of a circle subtends at the centre is double that which it subtends at any point on the remaining part of the circumference.

44. Angles in the same segment of a circle are equal; and if the line joining two points subtends equal angles at two other points on the same side of it, the four points lie in a circle.

45. The angle in a semi-circle is a right angle; the angle in a segment greater than a semi-circle is less than a right angle; and the angle in a segment less than a semi-circle is greater than a right angle.

46. The opposite angles of any quadrilateral inscribed in a circle are supplementary; and the converse.

47. If a straight line touch a circle, and from the point of contact a chord be drawn, the angles which this chord makes with the tangent are equal to the angles in the alternate segments.

48. If two chords of a circle intersect either inside or outside the circle, the rectangle contained by the parts of the one is equal to the rectangle contained by the parts of the other.

[Section V.]

PROPORTION. SIMILAR TRIANGLES.

49. If a straight line is drawn parallel to one side of a triangle the other two sides are divided proportionally; and the converse.

50. If two triangles are equiangular, their corresponding sides are proportional; and the converse.

51. If two triangles have one angle of the one equal to one angle of the other and the sides about these equal angles proportional, the triangles are similar.

52. The internal bisector of an angle of a triangle divides the opposite side internally in the ratio of the sides containing the angle, and likewise the exterior bisector externally.

53. The ratio of the areas of similar triangles is equal to the ratio of the squares on corresponding sides.

N.B.—Should the number of candidates who have applied to be examined at any one of the above centres fall short of *fifty*, the candidates that selected that centre must be prepared to proceed, at their own expense, to the nearest centre where the examination may be held. Timely notice will be given to the candidates concerned.

If a candidate who belongs to one Native State selects a centre in another Native State, he should submit *his* application for admission to the examination through the educational authorities of the State to which the centre selected belongs, so that they may have an opportunity of disallowing the selected centre and directing the candidate to select a centre in the State of which he is a resident. When objection is not taken, candidates may conclude that their names will be registered for examination at the centres mentioned by them in their applications.

3. No notice will be taken of the application of any candidate who selects a centre which is not in the above list, and no candidate will be allowed to name more than one centre. No candidate will on any account be allowed to change the place of examination entered in his application, *which must invariably be the place where he is employed or ordinarily resident or should it not be a centre, the place nearest to it where the examination is held.* A candidate appearing for examination at a centre other than the one mentioned by him in his application must be prepared to have his examination cancelled.

4. In addition to the above centres, the Commissioner will be prepared to arrange for the holding of the *Written* examination in any of the subjects mentioned at any other place, if he is satisfied that not fewer than *fifty* candidates are likely to offer themselves for examination, and it is advisable to make such place a centre. Applications for the inclusion of such places or places in the list of centres should be made to the Commissioner through the local educational or other authorities concerned before the 15th February. Ordinarily, however, only one place will be constituted a centre for each district.

5. The oral and practical examinations in Typewriting (Higher grade) will be held at those places only where satisfactory arrangements can be made for the conduct of such examinations.

6. Candidates whose examinations, either written or oral and practical, cannot be arranged for at any place must, *at their own expense*, proceed to Madras or to the nearest centre where they are held in the subjects in which they appear.

7. Heads of institutions are requested to see, before the certificate at the foot of the application is signed by them, that their institution has been recognised by the Director of Public Instruction, Madras, or by the Director of Industries, Madras, as fitted to impart instruction in the *Technical* subjects and for the grades in them brought up by their *pupils*.

N.B.—Heads of institutions recognised for *General Education only* should not sign the certificate at the foot of the application form filled in by any of their pupils coming up for any of the Technical examinations.

8. All pupils coming up from the same institution must select the same centre, and the applications of all of them should be forwarded together (along with a covering letter stating the number of applications) by the head of that institution, no application of any *private* candidates being enclosed with these applications.

9. Candidates must send in their applications neatly cut in English on *printed forms so that they may reach the Commissioner's office not later than the 28th February, after which date no application will be received.* Only one form of application should be used by each candidate, although he may bring up both Shorthand and Typewriting.

10. Candidates in the mufassal should obtain the required application forms from the treasury of the taluk in which they are resident or of the district to which they belong. Candidates in Mysore, Hyderabad, Travancore and Cochin States should obtain the same from the Resident's Treasury and those of Pudukkottai from the Political Agent for Pudukkottai, Trichinopoly. Candidates who are residents of Madras should apply for application forms at the office of the Commissioner for Government Examinations, Cathedral Post office (Madras), and not to the Collector of Madras.

N.B.—No notice will be taken of any application from candidates in the mufassal requesting to be supplied with application forms from this office.

11. The following is the scale of fees to be paid by candidates for admission to the examinations :—

	Lower.	Higher.
	Rs.	Rs.
For each subject	6	12

N.B.—*No candidate will be permitted to come up for examination in more than one grade in the same subject at the same time.*

12. The prescribed fee must be paid in every case into a Government Treasury, or, if at Madras, into the Imperial Bank of India, and the receipt given by the Treasury Officer or the Imperial Bank of India attached to the application, which must in every case reach the Commissioner's office on or before the 28th February. *On no account will the fee be received in the Commissioner's office whether sent in cash or by Post Office orders. No application will be registered unless it reaches the Commissioner's office by the date prescribed.*

NOTE.—*At Madras, in the case of all pupils, the fee should be collected by the Headmaster and sent in a lump sum to the Imperial Bank of India together with two lists of the pupils, one of which will be retained by the Bank and the other signed and returned to the Headmaster. This latter list should be forwarded to this office along with the applications of the candidates. The necessary forms for this purpose will be supplied by this office to Headmasters on application.*

13. Each application should be sent direct to the undersigned, post-paid, superscribed and addressed as follows, the receipt for the fee paid *being securely tacked to it.*

N.B.—Candidates anxious to assure themselves that their applications have been received should enclose *an addressed post-card in their respective applications.* The post-cards should bear the sender's address only, and no other writing. Such post-cards will be returned to them as due course with the 'Received' stamp of the office impressed upon them. No other form of acknowledgment except that required by the postal rules regarding registered covers can possibly be given nor will any notice be taken of any letter from any candidate inquiring whether his application has been received. *Insufficiently stamped covers will be rejected.*

14. Candidates should write their names, their fathers' names and their house names *distinctly* and *in full* in their applications and give their *addresses in full* also; if 'Other Hindus' they should state in column 3 of their applications whether they are 'Non-Brahman Caste Hindus,' Adi-Dravidas' or 'Adi-Andhras.' Applications defective in any particular will be returned.

NOTE.—*The occupation or profession of candidates, or the appointments held by them should invariably be stated in full in column 10 of their applications.*

15. *The fees paid will, in no case whatsoever, be refunded, nor will it be reserved for a subsequent examination. Neither will any errors in that way have been inadvertently paid be returned. Candidates are warned to study the notification carefully and satisfy themselves, before remitting their fees, that they fulfil the prescribed conditions of admission to the examination and that they can, if necessary, proceed, at their own expense, beyond the limits of the examination centre selected by them, for the purpose of undergoing the Written or the Oral and Practical examinations.*

16. Subject to any change that it may be necessary or convenient to make in the arrangements, the Written examinations will be conducted in the order of time and subjects shown in the following table :—

Senate House, 9th February 1924.

GOVERNMENT TRAINING SCHOOLS IN THE NORTH ARCOT DISTRICT.

The Acting District Educational Officer, North Arcot, hereby notifies for the information of the Deputy Inspectors and Managers of Aided Schools in the district that candidates of the Elementary grade will be admitted for training in July 1924 in the following Government training schools under his charge :—

Number and Name of institution.	Number of stipends available		
	Higher Elementary.	Lower Elementary	Total.
(1) Government Higher Elementary Training School, Ranipet.	40	40	80
(2) Government Muhammadan Training School, Arcot ..	..	40	40

2. The period of training is two years in the case of students of both the Elementary Higher and Lower grades.

3. The District Educational Officer will make the selection on the recommendations of the Deputy Inspector of Schools. Each Deputy Inspector should furnish the teachers whose names are recorded in the register maintained in his office as per article 119 of the Inspection Code with forms of application for admission printed, cyclostyled or manuscript, and on receipt thereof from the candidates he shall select the applications according to the instructions given infra. Candidates should be informed that they run the risk of losing their appointments or having their grants curtailed if, after selection, they fail to join the training school on the 1st July 1924.

4. Two separate lists—one for the Higher Elementary candidates and the other for the Lower Elementary students—and that for each training school must be consolidated in the office of the Deputy Inspector and submitted with a tabular statement containing the following particulars about each candidate :—

(1) Serial number; (2) name in full; (3) age on 1st July 1924; (4) caste or race; (5) present appointment; (6) length of service as teacher; (7) educational qualification; (8) language; (9) guarantee of the Manager for providing the applicant with an appointment after training; (10) whether a stipend is desired; (11) remarks.

N.B.—Under column 7 must be given (*a*) public examinations passed with year and number of certificate, or (*b*) transfer certificates held, or (*c*) school leaving certificates held, or (*d*) nature of seminal school certificate, held with number and date, or (*e*) in the absence of any of the foregoing a certificate from the Deputy Inspector of the range to the effect that the candidate's educational qualifications entitle him to admission. Higher Elementary students should possess a Lower Secondary examination certificate or a transfer certificate of having secured promotion from the Third Form or a certificate from some respectable person to the effect that they have read in the Fourth Form at least or an Elementary school-leaving certificate of having been promoted from the eighth standard.

5. The tabular statement should contain the names of the candidates in the order in which the Deputy Inspector desires that the selection should be made, and they should be selected with reference to their services as teachers, the need for their training, age, the school from which they apply, their qualifications and the nature of the appointment held by them. The attention of the inspecting officers is directed to Madras Educational Rules, rules 114 and 115. It is expected that each Deputy Inspector's list will contain at least ten names for each grade. It should ordinarily include only the names of persons actually engaged in teaching.

6. Teachers employed in the Muhammadan schools should submit their applications for training to the Deputy Inspector of the Muhammadan range and not to the Deputy Inspector of Boys Schools.

7. Teachers employed permanently in local board schools will not be paid any stipends from Provincial funds. If there is any provision in the local fund or the municipal budget under stipends to teachers, applications may be obtained from such teachers with the consent of the President, Taluk Board, or the Chairman of the Municipal Council, as the case may be, and submitted with a separate list for each training school and for each grade. Clear information should be furnished regarding the nature of the appointment held by them (permanent, sub. *pro tem* or acting) as the case may be.

6 If any applications be received from candidates for training in the schools out of this circle, they should be submitted separately with a separate list.

9 No certificates, original or copy, need be submitted with the applications, but each Deputy Inspector should satisfy himself as to the correctness of the information given in the application form.

10. Supplemental lists will not be considered after the prescribed date on any account.

11. The lists, complete in every respect, and the applications, must be submitted by the Deputy Inspector to this office on or before the 1st May 1924 without fail.

Separate conduct certificates need not be submitted by candidates whose applications are signed by an inspecting officer.

The Judge or Deputy Registrar or Principal, as the case may be, shall thereupon satisfy himself as to the identity of the candidate; and he shall, on or before the first day of March, transmit to the Examination Board all such applications with the documents accompanying, together with the list of the applications and annexures and any other information which he may think it needful in any case to communicate.

Articled clerks applying under proviso (a) to rule 10 shall present their applications on or before the 15th February to the Deputy Registrar of the High Court, the Original Side, who will forward them to the Examination Board before the 1st March with the certificates showing that the applicants have the permission of the High Court to appear for the examination.

15. The Board shall thereupon take the case of each candidate with the report of the District Judge or Deputy Registrar or Principal into their consideration, and shall determine whether or not the candidate is possessed of the necessary qualifications. If the candidate is found qualified the Examination Board shall cause his name, the name of his father, his age, place of residence and other needful particulars to be entered in a register of persons permitted to appear at the examination.

16. An extract from the register shall be forwarded to the District Judge or Deputy Registrar or Principal, with a declaration that the candidate is permitted to appear at the next ensuing examination for delivery to him. The Judge or Deputy Registrar or Principal shall cause a notice of his having received such extract to be posted on a notice board in the Court-house or Law College; and shall deliver them to the candidate on application; and it shall be the duty of the candidate, on the day fixed for the examination, to produce such extract, when called upon, to the officer appointed by Government to preside and superintend at the examination.

The District Judge, in carrying out these rules, shall conform to such instructions as he may receive from the Examination Board through their President or Secretary.

Admission.

17. Any person who shall have qualified under these rules and who shall desire to be admitted to practise shall pay into the Government treasury at the district in which he shall intend ordinarily to practise the admission fee prescribed, and shall, on presentation of the certificate of the Examination Board of his diploma or of the provisional certificate or in the case of a person who has passed the examination qualifying for the degree of Bachelor of Laws of the University of Madras, but has not taken the degree of a declaration in the form appended to these rules duly signed by him, that he has passed the said examination, of receipt for the said fee, and of a stamp paper* of the necessary value for his first certificate of practice, be entitled to apply to the High Court for admission, stating in what court he desires to practise with reference to part I of the second schedule of Act XVIII of 1879.

*Under the General Stamp Act, G.O. No. 2561, Judicial, dated 13th August 1884, and H.C. Circular No. 458, dated 24th February 1885.

18. The application, together with the certificate or diploma or of the provisional certificate or declaration, the receipt and the stamp paper required by rule 17, shall be presented to the Judge of the district in which the applicant intends ordinarily to practise, and shall be forwarded by the Judge to the Registrar of the High Court, with such remarks as he may think fit to make thereon. The name of the applicant and his place of abode, together with his father's name and place of abode, shall be affixed in some conspicuous place in the Court-house of the Judge to whom the application is sent, and also in the Court, at least six weeks before the applicant is admitted to practise.

19. The High Court may call for evidence of the respectability of the applicant in any case in which it may be deemed necessary.

Certificate.

20. Upon the applicant being admitted by the High Court, the Registrar of the High Court shall cause his name to be entered in the proper register, and shall issue to him a certificate as required by section 7 of Act XVIII of 1879, authorizing him to practise up to the end of the calendar year in the courts specified therein.

Provided that—

(a) in no certificate issued to a Pleader of the first grade shall courts in more than three adjacent districts be specified ; and

(b) in no certificate issued to a Pleader of the second grade shall courts in more than one district be specified.

On the renewal of certificates except with the special sanction of the High Court, those districts and courts only shall be entered which were entered in the certificate in the preceding year subject to the foregoing proviso.

21. The certificate shall bear the number assigned to it in the register and shall be signed by the Registrar and forwarded to the District Judge to be delivered to the applicant.

The certificate shall be taken to authorize enrolment in the courts specified therein. The holder can take it to any court therein mentioned, and may, with the approval of the presiding Judge, be enrolled in such court. The approval should not be withheld unless the Judge is aware of circumstances which, in his judgment, affect the professional character of the applicant ; and in any case in which enrolment is refused, the fact and the reasons for it should be communicated forthwith to the High Court.

Renewals.

22. Every application for the renewal of a certificate must be made through the Judge presiding in the court in which the Pleader ordinarily practises, and, unless the High Court or a Judge thereof otherwise orders, shall be made not later than 15th November, and shall be forwarded by the District Judge to the Registrar of the High Court not later than the 30th idem. The renewal certificates shall be issued as soon as possible and, unless the High Court or a Judge thereof otherwise orders, shall be dated 1st January of the year to which they relate.

Printing of renewal certificates.

Renewed certificates will be issued from the High Court in printed forms similar to those used for the original certificates. District Judges are accordingly requested to submit the black stamp papers prescribed by all applicants for renewed certificates to the High Court as early as possible. The prescribed forms will thereupon be printed in the High Court on the stamp papers and these will be returned to the District Courts for issue to the applicants. In case an applicant submits more than a single stamp paper for his renewed certificate, the paper of the highest value alone must be sent to the High Court with the "words first or second grade Pleader," as the case may be, written on the back.

Pending the receipt of the renewed certificate, practitioners may continue to practise subject to such precautions as to identification as the District Judge may think fit to prescribe.

Fees.

23. The fees payable previous to examination and on application for enrolment shall be as follows:—

	First-grade Pleadership.	Second-grade Pleadership.

No refund, either of Pleadership admission (enrolment) fees or of Pleadership examination fees, shall be made without the sanction and authority of the High Court.

Refunds of admission (enrolment) fees may be granted at any time by the High Court of its own motion or on reference from a District Judge. Refunds of examination fees may be granted at any time after the candidate is declared by the Pleadership Examination Board to be ineligible for the examination.

Penalties.

24. If any person, having passed the examination entitling him to be admitted and enrolled as a Pleader, shall fail to apply for such admission and enrolment for a period of one year from the time of passing the examination, he shall not be admitted and enrolled, except by special order of the High Court.

25. If any person, having obtained a certificate, shall fail to renew it for a period of two years, he shall not be entitled to have it renewed, without the orders of the High Court, and shall be required to produce satisfactory testimonials to his character during the interval.

26. If any person shall hold any appointment under Government, or be a student at any school or college, or shall carry on any trade or other business, at the time of his application for admission as a Pleader, he shall state the fact in his application for admission, and the High Court may refuse to admit such person, or pass such orders thereon as it thinks proper. Save on the conditions mentioned hereunder, the High Court will not grant Pleadership certificates to persons holding judicial or other office under Government :—

(1) The applicant must be prepared to resign his appointment *on receipt of his pleadership certificate.*

(2) The applicant must obtain leave of absence from his official superior with the object of practising as a Pleader. In this case the certificate is granted only on condition of its being returned for cancellation should the applicant revert to his appointment under Government.

27. If any person, having been admitted as a Pleader, accepts any appointment under Government, becomes a student of any school or college for purposes of pursuing his studies or enters into any trade or other business, or accepts employment as a Law Agent other than a Pleader, Mukhtar

(1) Provided that when a Pleader is appointed by or under the authority of the High Court to the office of District Munsif, whether temporarily or permanently, it shall not be necessary to give the notice prescribed in the first part of this rule; but no Pleader, while employed as District Munsif, shall be permitted to practise or do any business as a Pleader before any court; and

(2) Provided also that Pleaders may take part in the management of societies registered under the Co-operative Societies Act, II of 1912, in the areas in which they practise; but no Pleader, so taking part, shall receive any remuneration other than the ordinary profits without the special leave of the High Court.

Suspension and dismissals.

28. Subordinate Judges and District Munsifs are required to bring to the notice of the District Judge every case in which a Pleader is guilty of misconduct for which he is liable to be suspended or dismissed under the provisions of the Legal Practitioners Act.

In every case in which a report is received under section 14 of the Legal Practitioners Act or the High Court after perusal of the records considers the proceedings of a Subordinate Court should be revised under section 15 of the Act, the Registrar shall set the case down for hearing by a Bench of three Judges, and shall give reasonable notice to the Pleader, and to the person (if any) on whose complaint proceedings were instituted of the day on which the report or order will be considered, and such Pleader and complainant may appear in person or by Counsel or Vakil to show cause against or support the report or order.

NOTICE OF CONDITIONS OF ISSUE OF FIXED FEE FOREIGN LIQUOR LICENCES.

No. 3.—The following notification is issued in supersession of Notification No. 2, dated 30th January 1923, published in the *Fort St. George Gazette*, Part II, dated 6th February 1923:—

In exercise of the power conferred on him under section 4 (*g*) of the Madras Abkari Act, 1886, the Commissioner of Salt, Abkari and Separate Revenue, hereby prescribes, under section 24 of the Act, the following rules for regulating the issue of licences on fixed fees for the compounding, blending, bottling and sale of potable foreign liquors, locally-made foreign liquors and coconut toddy arrack from and after the 1st April 1924 within the limits of the Madras Presidency:—

1. The term 'foreign liquor' in these rules includes all wines, spirits and beer imported into the Presidency by sea or land; plain rectified spirits imported or locally made and on which the tariff rate of duty has been paid, and beer brewed in India or beer imported in a condensed form and afterwards converted into potable beer and duly excised, but excludes locally-made foreign liquor, denatured spirits, coconut toddy arrack and ordinary arrack. In the case of licences to chemists, druggists and other approved firms or persons, however, for the sale of pure rectified spirits only, the term 'foreign liquor' means pure rectified spirits imported from foreign countries by sea or manufactured in this country and excised at the tariff rate of duty.

'Locally-made foreign liquor' is spirit manufactured or compounded in British India and made in colour and flavour to resemble gin, brandy, whisky or rum imported from foreign countries. It is excised at Rs 17-8-0 per proof gallon; its sale is permitted in all foreign liquor shops except those licensed for the exclusive sale of beer, medicated wines and rectified spirits.

'Coconut toddy arrack' is spirit manufactured from toddy at the Chowghat distillery in Malabar and excised at Rs 17-8-0 per proof gallon; its sale is permitted in all foreign liquor shops except those licensed for the exclusive sale of beer, medicated wines and rectified spirits. The maximum limit of private possession is two imperial gallons.

NOTE.—The minimum strengths at which imported and locally-made foreign spirits can be sold are 25° U.P. for gin, 30° U.P. for Colombo arrack and coconut toddy arrack and 25° U.P. for all other kinds of spirits including Italian arrack, except denatured spirits.

'Indian' beer is beer brewed in India (*a*) which contains at least two bushels of malt and two pounds of hops per hogshead and in the manufacture of which jaggery or crude cane sugar is employed, (*b*) which is brewed at a higher original gravity than 1,058° on a standard saccharometer and (*c*) the maximum price of which at the brewery is Rs. 40-0-0* per hogshead *plus* the excise duty in force at the time of issue.

2. Licences for the sale of foreign liquors, locally-made foreign liquors and coconut toddy arrack shall be of the following descriptions:—

I. *Wholesale licences for the sale of foreign liquor, locally-made foreign liquor and coconut toddy arrack not to be drunk on the premises.*—These will be issued on an annual fee of Rs 250 at the discretion of Collectors. Under these licences the sale of liquor in quantities less than two imperial gallons or a dozen reputed quart bottles or two dozen reputed pint bottles of each kind at a time is prohibited. The holders of this licence will have the privilege of issuing to licensed dealers only samples of liquor in quantities not exceeding one pint. In Madras town, holders of this licence will not be allowed to sell 'Indian' beer. Holders of this licence are prohibited from selling coconut toddy arrack in bulk to private persons in Malabar district and are permitted to sell it to such persons only in bottles, sealed and labelled in accordance with the bottling rules.

II. *Retail licences for the sale of foreign liquor, locally-made foreign liquor and coconut toddy arrack not to be drunk on the premises.*—These will be of two kinds—one for the sale of all kinds of foreign liquor, except 'Indian' beer and of locally-made foreign liquor and coconut toddy arrack and the other for the sale of beer brewed in India.

† (*a*) The former will be issued at the discretion of the Commissioner and Collectors on payment of an annual fee of Rs. 1,000 in the Nilgiris except Gudalur, Rs. 500 in the town of Madras, Rs 250 in towns having a population of 25,000 and over and in Kodaikanal, Yercaud and Cochin, and Rs. 150 in the rest of the Presidency. Under these licences the sale of liquor in a quantity less than one reputed pint and greater than two imperial gallons in one transaction will be prohibited.

(*b*) Retail licences for the sale of beer brewed in India will be issued to successful bidders for beer shops on payment of an annual fee of Rs. 50.

III. *Hotel licences for the supply of residents in hotels and boarding houses.*—These will be of two classes and subject to a payment of an annual fee of Rs. 250 or Rs. 150 in Madras, of Rs. 100 or Rs. 50 on the Nilgiris, and of Rs. 50 or Rs. 25 in the rest of the Presidency, as may

* The maximum price of Indian beer at the Bangalore brewery will be Rs. 60 per hogshead (excluding duty) and the supply will be restricted to shops which have obtained beer from that brewery during 1922-23.

† NOTE.—In places where there are beer shops, holders of retail licences for the sale of all kinds of foreign liquor except Indian beer will be permitted to sell beer brewed in India on English principles only in bottles as bottled at the brewery at which it was brewed.

in each case be determined by the Collector. No liquor may be sold under these licences otherwise than to residents in hotels and boarding-houses for their own use and that of their guests, or to casual visitors requiring liquor with the meal or meals supplied to them.

In Madras a holder of a hotel licence desirous of setting up and maintaining in his hotel a bar or bars may, on payment of a monthly fee of Rs. 100 for a first-class bar or Rs. 50 for a second-class bar, be granted a separate licence to be called a bar licence. This will cover the sale of foreign liquor, locally-made foreign liquor and coconut toddy arrack under the same conditions and to the same extent as the tavern licence.

In Madras, special bar licences will also be issued to others than holders of hotel licences with the previous sanction of the Commissioner. The fees in such cases will be fixed by the Commissioner and the licences will entitle the holders to sell to all comers.

IV. *Refreshment-room licences* will be of two classes—

(*a*) *For refreshment-rooms maintained by, or under the supervision and control of, railway companies and proprietors or managers of lines of dâk carriages for the supply on the premises of travellers by such railways or dâk lines*—The annual fee payable for each licence will be fixed by the Commissioner from time to time. Under these licences liquor may be sold to *bonâ fide* travellers, or to other persons served with regular meals in the rooms for consumption on the premises to any extent, provided that no more than one reputed quart of spirits or two reputed quarts of any other kind of liquor sold at the refreshment-room may be sold at one time to any such traveller for removal from the premises.

(*b*) *For refreshment-rooms in which the sale of liquor is ordinarily combined with the supply of meals or of eatables prepared and served in the European manner.*—The annual fee will be Rs. 500 in Madras and Rs. 75 in the rest of the Presidency. It will at all times be optional with the Collector to withdraw licences of this description if it should appear that the sale of liquor to persons who have not partaken of meals in the refreshment-room is permitted to such an extent or so habitually that the refreshment-room may fairly be classed as a tavern. Sale of liquor for removal from the premises will not be allowed under these licences. The premises to be used for the sale of liquor under these licences must be at least of the monthly rentable value of Rs. 50 in Madras and in Cotacamund and Coonoor Municipalities and of Rs. 25 in the rest of the Presidency.

V. *Occasional licences*, such as licences for the sale at refreshment stalls in connexion with race meetings and public entertainments. These will be granted by Collectors at their discretion for periods not exceeding ten days at one time and at such fees not exceeding Rs. 100 on each occasion as they may determine. No removal of liquor from the premises will be allowed under these licences.

VI. *Special licences* will also be granted by Collectors in consultation with the officers of the Salt, Abkari and Customs Department when the circumstances are such as not to allow of the issue of licences of any of the above descriptions on such terms and conditions and for such periods as they may on each occasion determine.

VII. *Auctioneers' licences.*—Annual fee, Rs. 5. The following are important provisions of this licence :—

(*a*) Liberty to give sample bottles in respect of all consignments, whether trade consignments or the property of private persons, in order that intending purchasers may have the opportunity of testing high class wines and spirits at their own houses before the auction sale.

(*b*) Authority to sell wines, spirits and beer in less quantities than whole dozens of such description in the case of sales by auction of the property of private parties or estates or of trade consignments which are sulliaged or otherwise unmerchantable.

(*c*) Authority to sell by auction at places other than that specified in the licence, viz., at any private residence at which the licensee may hold an auction.

VIII. *Licences for the sale of pure rectified spirits.*—These will be issued to chemists and druggists and other firms or persons specially approved by Collectors, on payment of an annual fee of Rs. 10. Under these licences the possession of pure rectified spirits in excess of ten imperial gallons (or such larger quantity as the Collector may, in consultation with the officers of the Salt, Abkari and Customs Department, specially authorize) is prohibited. Pure rectified spirits must not be sold under these licences for other than *bonâ fide* medical, industrial and scientific purposes, and the maximum limit of sale at one time to the same person is restricted to one reputed pint in the case of sale to a private individual, two reputed quarts in the case of sale to a chemist, medical practitioner or scientific body and three imperial gallons to any Government, Local Fund or Municipal hospital.

IX. *Licences for the sale of medicated wines and similar preparations* containing 20 per cent and upwards but not more than 42 per cent of proof spirit will be issued by Collectors on payment of an annual fee of Rs. 10.

3. *Licences for compounding* $\frac{\text{or}}{\text{and}}$ *blending foreign liquors and locally-made foreign liquors* will be granted to holders of wholesale licences by Collectors and licences for *compounding* to licensed distillers by the Assistant Commissioner of Distilleries on payment of an annual fee of Rs. 250

4. *Licences for the bottling of foreign liquors, except beer brewed locally and of locally-made foreign liquors and coconut toddy arrack*, will be granted to holders of wholesale licences by Collectors and to licensed distillers by the Assistant Commissioner of Distilleries on payment of an annual fee of Rs. 50.

5. Any two or more of the above kinds of licences may be granted to the same person for the sale of liquor in the same premises.

6. No premises shall be used for the sale of liquor unless and until approved by the Collector.

7. All licensees shall maintain and furnish to Collectors statistics showing separately the consumption of imported foreign liquors and locally-made spirits and beers and coconut toddy arrack.

8. All licenses (other than occasional and special licences) will have effect for the official year, i.e., from the 1st April in each year until the 31st March of the following year.

9. The fixed fees exceeding Rs. 50 on all licences (other than special and occasional licences), will be payable in two instalments, one-half being payable when the licence is issued and the other half at the beginning of the second half-year, viz., 1st October.

10. For the convenience of the trade, Collectors will, so far as possible, receive and dispose of applications for licences under clause IV (*b*) to have effect during the following official year before the tavern rules for that year. Licences for the sale of liquor in mofussil refreshment-rooms should be very sparingly given.

11. All further information may be obtained and forms of licences may be procured at a charge of two annas each at the offices of Collectors.

Intending bidders are requested to be punctual. They should deposit for rice Rs. 360, dhall Rs. 90, gingelly seeds Rs. 40 and for the rest of the articles Rs. 50 as earnest money, which in the case of unsuccessful bidders, will be returned immediately after the auction is over. In the case of suppliers, who may not be able to attend the auction, sealed tenders will be accepted, provided they reach the Superintendent on or before the day and hour mentioned above, and are accompanied by the earnest money specified in the schedule. Tenders, which will only be received on printed forms to be had free of cost on application, should be superscribed "Tender for the supply of rations and miscellaneous articles to the Borstal Institution, Tanjore". They will be opened at the time of auction and the offered rates considered along with the bids. The rates should be quoted in pounds and ounces per rupee for delivery at the Borstal Institution, Tanjore, the qualities being specified in words as well as in figures. Samples of the articles required can be seen at the auction. Suppliers may bid or tender for all or any one of the articles mentioned in the schedule on depositing the requisite earnest money. All supplies must be up to the samples accepted by them or approved by the Superintendent.

2. Successful bidders or tenderers will be required to enter into stamped agreements with the Institution within seven days from the date of receipt of intimation by them that their rates have been accepted. In addition, they should before signing such agreements, deposit a security of 10 per cent of the total value of the supplies undertaken. (With the approval of the Inspector-General of Prisons, the total amount may be reduced in the case of approved contractors). Failing compliance within the time specified, the earnest money may be confiscated, and in the event of withdrawal they will also be liable to pay any difference between the prices accepted and those ultimately obtained by the Institution. The earnest money received from successful bidders or tenderers will be taken towards their security deposits and those from others returned at the close of the auction.

3. The Superintendent reserves the right to accept or reject any bid or tender without assigning any reason.

4. Contracts should not be sublet.

5. Any rates accepted and contracts entered into will be subject to confirmation by the Inspector-General of Prisons, Ootacamund, whose decision shall also be final in all questions of infringement.

6. As the quantities given against each article in the schedule are only approximate, contractors will be under an obligation to supply the entire requirements during the period of the contract, plus so much as may be needed to last for a whole month thereafter, provided, in respect of the extra quantities, that written orders are given within a fortnight of the termination of the agreement. At the same time, the Superintendent does not bind himself to receive the quantities or numbers noted in the schedule if they are not required.

7. No article is to be supplied to the Institution except on a requisition signed by the Superintendent, or some responsible person authorised by him in writing to do so "by order".

8. No advance of cash will on any account be made to the contractors when giving orders, nor will the Institution pay freight or other charges on consignments to be afterwards deducted from bills, but payment for articles delivered at the Institution no order will be made promptly after they have been inspected and passed. Contractors must submit to receive payment of their bills in whole rupees, to which end annas forming part of the sum due on each bill will be disregarded, unless they constitute a fraction equivalent to half rupee or more, when they will be treated as a whole rupee for the purposes of the account.

9. During the prevalence of plague in the vicinity of the Institution or in that of the area from which supplies are drawn, all grain, etc., will be liable to be first exposed to the sun outside before being taken in. Also if for any other reason the Superintendent considers expedition of articles to sun necessary.

10. Contractors are required under a penalty not exceeding Rs. 25 to invariably send with each supply, a memo or advice note, duly signed, showing the number of quantity tendered for acceptance. Also to sign and return within a week of payment by cheque, cash order, or remittance transfer receipts, all connected bills forwarded by the Superintendent for the purpose. Questions in connection with any supposed short payment may be referred to the Superintendent, separately, but are not to be made an excuse for delay or refusal to sign.

11. In addition to any differences in price that may be recoverable from contractors on account of purchase rendered necessary elsewhere by failure, neglect, or refusal on their part to supply according to the terms of their agreements, a fine not exceeding Rs. 50 may be levied at the discretion of the Superintendent for each and every such case of default. For repeated

infringement of the stipulations of the contract or for other justifiable reasons, he may also annul it, recovering all losses sustainable by the Institution in consequence of the annulment, from the security deposited by the contractors, or other monies due to them, and, in the event of any residue, by legal measures if so advised.

12. All wastage found to occur in excess of the respective percentages prescribed in the schedule will have to be made good by the contractors.

13. Further information on any point concerning this notification can be had from the office of this Institution.

14. When once the rates offered at an auction or by tender have been accepted, lower quotations from others to the Superintendent or to the Inspector General of Prisons will not be considered.

SPECIFICATION—EARTHWORK.

1. *Removal of bushes and trees.*—The first thing to be done is to remove bushes and prickly-pear. All trees which have to be removed should be cut down and disposed of as directed by the Sub-Divisional Officer.

2. *Levels.*—When the maistri reports that the above rule has been complied with, the Overseer will fix the levels on palmyra posts or stakes let 12' into the bank. The top of the post will indicate top of bank at that point. In fixing the level of posts an allowance of 2" is to be made for settlement for every foot of raising. The toe of the rear slope of the proposed bank should then be lined out. Close to but clear of each level peg, model earth sections should be put up before any other earthwork is started. They should be made of earth well watered and rammed and they should be either turfed or gravel'd. They should be not less than 4½' wide. At each visit the Overseer should see that earth sections are constructed for a length long enough to provide the contractor for at least a month's work.

3. *Earthwork.*—Wherever earth has to be laid the bank should be benched in steps 12' to 2' high according to the amount of raising. When this is done, earthwork may be commenced. Toes should be marked out by the Overseer. They should be chosen in good soil at least 4' from at the toe of bund and should as far as possible be of uniform width. This will facilitate measurement and tend to check the possibility of fraud. The earth should then be thrown up in 6" layers to full section of bund and watered and tempered, if so specified. The work shall be going in accordance with the plans.

4. *Revetment.*—Great care in selecting the best gravel for backing is required. If good gravel is not available, stone jelly may be used. The thickness of the revetment must always be made up of one stone and all the bed joint should be at right angles to the face of the revetment. Whenever repacking old stone is allowed in the estimate it should be done before any new stone is used.

5. *Payments.*—Payments for earthwork will as a general rule be based on pit measurements. The Overseer should however take a longitudinal section both of the bank before the work is commenced and after it is completed. This will act as a check on pit measurements. When owing to subsurgence of pits bank measurements have to be taken 15 per cent deduction must be made from them to allow for the excess over pit measurement.

6. *Excavating foundations and refilling.*—Cutting open banks and excavating foundations are not to be put up in hand till all the materials have been collected for small works such as sluices. For large works at least half the materials must be collected. At each work a solid masonry or concrete bench mark must be fixed and the contractor given a statement in writing regarding the depth of foundations below this B. M. laying of foundations must not be commenced until they are inspected by the Overseer in case of small works and by the Sub-Divisional Officer in the case of large ones. In deep cuttings such as tank sluices, the banks must be sloped back to a slope of ¼ or ⅓ to 1 or to such slope as will obviate the possibility of an accident from falling earth. Refilling will be done in layers and will follow the superstructure; being kept 1'6" below the top of the masonry while the work is in progress in order to avoid disturbing the top courses while tamping. It is most important that the tamping should be very thoroughly done. No materials to be stacked within a distance equal to 1½ times the depth of cutting for foundations.

7. *Concrete.*—Will as a rule consist of stone broken to pass through a 2" ring in the proportion of 3 broken stone to 1 mortar. The mortar to be made in the proportion of 1 lime to 2½ sand and when surki is used 1 lime, 1½ sand, ½ surki. These proportions may be modified by special orders from the Executive Engineer. The broken stone is to be well watted before being mixed with the mortar; mortar is to be first made and be mixed with the proper proportion of stone. The concrete is to be deposited by baskets in the trenches in 9" layers and rammed hard with wooden rammers. The work should be continuously done so that the lower layers may not set hard before the upper

layers are put in. If, for any reason, a layer has set hard its surface should be well scored with a pick and the debris removed before another layer is put in. When a layer of concrete has been once rammed and has begun to set it should on no account be rammed again. All concrete deposited on any afternoon should be rammed the same evening.

8. *Rough stone in mortar.*—No boulders to be used, and all stones to be broken with faces. Every fourth stone to be a through stone for walls 2'0" and under. For walls of greater thickness than 2'0" every fourth stone to be at least 2'0" long. Every stone must be laid so that its vertical depth does not exceed its length or its breadth. All interstices to be filled with quarry chips tightly packed in mortar, the mortar to consist of the proportions laid down for concrete, all stones to be well wetted before being used.

9. *Burnt stone in shutters.*—The stone will be obtained roughly squared, all irregular shaped stone to be rejected. The work will be built in courses, the thicker courses to be towards the bottom of the wall. Every third course must be brought up to level throughout. In other respects the specification for rough stone in mortar is to be observed.

10. *Lime.*—Must be freshly burnt and slashed. It must be carefully screened and stored in dry sheds.

11. *Surki.*—Should be prepared from under burnt bricks of a clayey rather than a sandy nature. It should be screened as finely as possible and kept very dry.

12. Sand should be clean and sharp edged; there is no objection to its being coarse especially for concrete.

13. *Mortar.*—Should be ground in a mill worked by bullocks; for ordinary mortar from 60 to 80 revolutions will suffice and for surki mortar from 80 to 100 revolutions should be insisted on. Surki mortar should not be kept longer than the day following that on which it was made. All remaining longer than that time should be rejected.

14. *Pointing.*—Should follow the outline of the stones, and mortar should not be plastered over the faces which should be kept as clean as possible when building. Pointing and all fresh masonry work must be watered for 12 days after completion at the contractor's cost.

15. *Cut stone.*—Covering stones to have the side joints and ends resting on the masonry dressed. Platform, coping, vent and guide stones and all cut stones other than covering stones to be neatly dressed to size.

16. *Wood work.*—The rate for wood work includes tarring and iron work complete. All wood work to have two coats of tar. Needle shutters to have iron straps 1½" wide and 3/8" thick with outer edge flush with face and sides of the wood. The strap will be fixed 1½" below the top of the shutter and will be securely riveted on. A hole ¼" diameter bens with iron will be bored just above platform level to facilitate working the shutters. The sides of vents must be dressed so that the shutters fit close.

17. *Bamboo stake work.*—The bamboos selected for stake work shall be first class hanali bamboos of about 6" girth without excessive hollows (i e) must be solid. The pits shall be about 6' deep each and driven not less than 2' into soil. They shall be driven 2' apart along the length of the channel and in two rows 5' apart. They shall be fixed in position by not less than one longitudinal waling piece for every 5' of height over the channel bed in each row. The space between shall be filled with babool or other Crash-wood laid in bundles and closely packed down and when the full depth has been so filled it shall be kept in place by cross walings between the two rows of stakes. All walings shall be nailed on to the verticals with wire nails not less in length than twice the diameter of the pile and no ropes or strings shall be used.

18. *Clearing up site and general remarks.*—All surplus materials and debris to be removed from the workspot and the site thoroughly cleared by the contractor before the final bill is passed. If any additional work is required to thoroughly complete the work, the subordinate in charge must apply for permission to carry it out, stating the probable cost and whether it can be met from contingencies or savings. Any other work not mentioned in this specification to be done according to the standard specification of the Public Works Department. Contractors or piecworkers failing to comply with these will be liable to fine, to annulment of their agreement and to forfeiture of deposit.

It is the contractor's duty to ask for and see that he gets proper bench marks and levels and all other instructions necessary for carrying out the work in accordance with these specifications.

The contractor must also see that he receives orders in writing. No attention will be paid to oral orders and any work which the contractor may do without written orders will be at his own risk. All labour and materials required for taking levels, putting up level posts or for any other purpose connected with setting out work must be supplied by the contractor at his own cost.

AUCTION FOR THE SUPPLY OF RATIONS AND MISCELLANEOUS ARTICLES.

NOTICE is hereby given that the Superintendent will hold an auction at the District Jail, Palamcottah, at 3 p.m. on Thursday the 20th March 1924, for the supply of the following articles of rations during the year 1924–1925. Intending bidders are requested to be punctual. In the case of suppliers who may be unable to attend the auction, sealed tenders will be accepted, provided they reach the Superintendent on or before the day and hour mentioned above, and are accompanied by the earnest-money specified in the schedule. Tenders, which will only be received on printed forms to be had free of cost on application, should be superscribed "Tender for the supply of rations and miscellaneous articles to the District Jail, Palamcottah." They will be opened at the time of auction and the offered rates considered along with the bids. The rates should be quoted in pounds and annas per rupee for delivery at the District Jail, Palamcottah, the quantities being specified in words as well as in figures. Samples of the articles required can be seen at the auction. Suppliers may bid on tender for all or any one of the articles mentioned in the schedule on depositing the requisite earnest-money. All supplies must be up to the samples accepted by them or approved by the Superintendent.

2. Successful bidders or tenderers will be required to enter into stamped agreements with the Jail within seven days from the date of receipt of intimation by them that their rates have been accepted. In addition, they should before signing such agreements deposit a security of ten per cent of the total value of the supplies undertaken (with approval of the Inspector-General of Prisons, the total amount may be reduced in the case of approved contractors). Failing compliance within the time specified, the earnest-money may be confiscated, and in the event of withdrawal they will also be liable to pay any difference between the prices accepted and those ultimately obtained by the Jail. The earnest-money received from successful bidders or tenderers will be taken towards their security deposits and those from others returned at the close of the auction.

3. The Superintendent reserves the right to accept or reject any bid or tender without assigning any reason.

4. Contracts should not be sublet.

5. Any rates accepted and contracts entered into will be subject to confirmation by the Inspector-General of Prisons, Ootacamund, whose decision shall also be final in all questions of infringement.

6. As the quantities given against each article in the schedule are only approximate, contractors will be under an obligation to supply the entire requirements during the period of the contract, plus as much as may be needed to last for a whole month, thereafter, provided, in respect of the extra quantities, that written orders are given within a fortnight of the termination of the agreement. At the same time, the Superintendent does not bind himself to receive the quantities or numbers noted in the schedule if they are not required.

7. No article is to be supplied to the Jail except on a requisition signed by the Superintendent, or some responsible person authorized by him in writing to do so "by order".

8. No advance of cash will on any account be made to the contractors when giving orders, nor will the Jail pay freight or other charges on consignments to be afterwards deducted from bills, but payment for articles delivered at the Jail on order will be made promptly after they have been inspected and passed. Contractors must submit to receive payment of their bills in whole rupees, to which end sums forming part of the sum due on each bill will be disregarded, unless they constitute a fraction equivalent to half rupee or more, when they will be treated as a whole rupee for the purposes of the account.

9. During the prevalence of plague in the vicinity of the Jail or in that of the areas from which supplies are drawn, all grain, etc., will be liable to be first exposed to the sun outside before being taken in, also if for any other reason the Superintendent considers exposition of articles to sun necessary.

10. Contractors are required (under a penalty not exceeding Rs. 25) to invariably send with each supply, a memo or advice note, duly signed, showing the number of quantity tendered for acceptance; also to sign and return within a week of payment by cheque, cash order, or remittance transfer receipts, all connected bills forwarded by the Superintendent for the purpose. Questions in connection with any supposed short-payment may be referred to the Superintendent, separately, but are not to be made an excuse for delay or refusal to sign.

11. In addition to any difference in prices that may be recoverable from contractors on account of purchase rendered necessary elsewhere by failure, neglect, or refusal on their part to supply according to the terms of their agreement, a fine not exceeding rupees 50 may be levied at the discretion of the Superintendent for each and every such case of default. For the repeated infringement of the stipulations of the contract or for other justifiable reasons, he may also annul it, recovering all losses sustainable by the Jail in consequence of the annulment, from the security deposited by the contractors, or other monies due to them, and, in the event of any residue, by legal measures, if so advised.

12. All wastage found to occur in excess of the respective percentages prescribed in the schedule will have to be made good by the contractors.

13. Further information on any point concerning this notification may be had from the Jail office.

14. When once the rates offered at an auction or by tender have been accepted, lower quotations from others to the Superintendent or to the Inspector-General of Prisons, will not be considered.
